

Australian International School Malaysia Hosts Interschool Triathlon

The annual AISM Interschool Triathlon was held on 27th-28th November 2010 at the Australian International School Malaysia (AISM), located at the edge of the Southern Lake of Mines Resort City. The race witnessed more than 150 children between the ages of 7- 15 years compete in a multidisciplinary sports event usually reserved for adults due to the level of difficulty. The triathlon was a hit with the kids who were seen pushing themselves to complete the swimming, cycling and running competitions. The two-day event which was held on the school's grounds kicked off with a one-day coaching clinic utilizing the skills and experiences of the teachers and coaches, followed by the triathlon. The event also received good support from the entire school community.
